

what's

BUBBLING

Finally, a “fashion” accessory that actually has a practical use. Saekodive’s regulator necklace AR-07 is designed to take the clutter out of back-up regulator/octopus to achieve a more streamlined profile. Designed to be worn safely and comfortably around the neck, it is the ideal place for quick and easy access should it be required. The regulator necklace is a one-piece accessory molded from high-density silicone with an ultimate tensile strength (UTS) at 24.17 kg/cm², and yield strength at 24.11 kg/cm². Simply place the necklace over the head, and then push the mouthpiece of the octopus through the small opening of the necklace. Available in yellow and black. Price: **US\$8**
